About Me

As a passionate and skilled React Developer with nine months of hands-on experience, I aim to leverage my strong foundation in HTML, CSS, JavaScript, and modern front-end libraries such as React.js, Next.js, Tailwind CSS, and Bootstrap to contribute effectively to dynamic and innovative development teams. With real-world project clones and responsive web applications under my belt, I'm eager to create user-friendly interfaces and interactive experiences. I'm seeking an opportunity to deepen my expertise in React and its ecosystem, contribute to impactful projects, and grow within a forward-thinking company as a dedicated front-end developer.

Internship Experience

MERN Stack Developer Intern [May 2025 - Conti...]
IT Genics - On-Site

- Built web apps using MongoDB, mySql, Express, React, and Node.js.
- Integrated REST APIs and third-party services.
